Part #...	Description	Image	Quantity	Cost
AE-131	<p>Dynamic sEMG Circular Dry Silver Electrodes: These are hypoallergenic pads for our sEMG Electrodes. Graphics on the pad indicate muscle orientation.</p> <p>Most healthcare providers use these with our Dynamic sEMG instruments.</p>			\$45/100
AE-178	<p>Dynamic sEMG Strip Style Silver Electrodes: These are smaller pads for dynamic EMG readings. The pads can be used in line or detached for EMG readings that require variable distance.</p>			\$75/100
AE-436	<p>Scan Pads: Consists of 40 electrolyte solution scanning pads.</p> <p>Use this to produce more consistent scans with less effort than using conductive gel.</p>			\$19./Jar
AE-422	<p>Scanning Heads: Silver coated, disposable scanning heads, snap into our sEMG sensor. 300 per Package.</p> <p>Use these for consistent & accurate results with NeuScan™, our static EMG system.</p>			\$35/150
GE-127	<p>Signa Gel (60 grams): Conductive gel for dynamic EMG recordings.</p> <p>May be used with our AE-131 or AE-178 Silver electrodes for better contact.</p>			\$9/Tube

Please allow \$9 for UPS Ground and \$19 for UPS 3 Days shipping. There is no shipping charge for orders placed on line.
